

COMPANY

CCK TM is a manufacturer of ventilation equipment, Air Handling Units, coils, control systems, and air distribution equipment

2024

01

CAPACITIES

We supply Air Handling Units and exhaust systems with heat recovery systems, which save up to 90% of heat; the use of engines based on ECM technologies are highly efficient and save up to 50% of energy.

CCK TM production equipment is widely used in commercial and industrial construction facilities

”

The vision of a productive future has contributed to the development and implementation of many innovative and energy-efficient solutions.

10 000 m2

CCK TM aims to be a professional in its work – a responsible manufacturer, and trustworthy.

The production area of the company is more than 10 000 m2.
The machine tools park of CCK TM includes modern and automated machines and equipment from leading manufacturers such as Trumpf (Germany), Salvagnini (Italy), LUKAS (Italy), CEMB (Italy), RAS (Germany), etc.

”

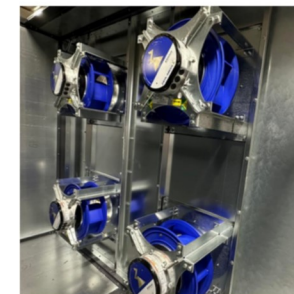

EQUIPMENT

AIR HANDLING UNITS

CCK TM provides energy-efficient AHUs that can be tailored to any type of project. Our selection of products includes both single units and large, flexible modular options. We provide residential ventilation units with heat recovery.

At CCK TM we also specialize in a wide range of compact false ceiling units. The units have the option of being equipped with energy-efficient ECM motors, rotary heat exchangers, and plate enthalpy counter-flow heat exchangers. CCK TM specializes in producing heat exchangers for various HVAC applications.

COILS

We can customize the selected heat exchangers based on your specific requirements. We produce Hot Water Coils, Chilled Water Coils, Condenser Coils, and Evaporator Coils.

06

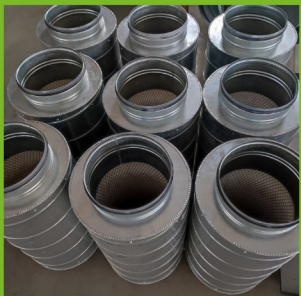

DUCT EQUIPMENT

The supply and exhaust systems have a modular design that can be individually adjusted.

We manufacture fans, coils, dampers and plate heat exchangers, duct silencers, standard sizes from (400-200 mm) to the largest to the largest (1000-500mm).

We specialize in rectangular and circular connectors.

SMOKE EXTRACTION

CCK TM offers quality fire safety products. We provide axial, radial, and roof fans for smoke-extraction, as well as axial supply ventilators. Additionally, we manufacture rectangular and circular fire dampers for commercial and industrial construction facilities. Our products incorporate components sourced from reputable manufacturers, including Belimo/Siemens, ABB and WEG, and Multi-Wing.

FANS

All CCK TM fans and blowers are manufactured and tested extensively in our lab. We produce radial, roof, axial, dust- extraction fans, kitchen fans, and roof elements.

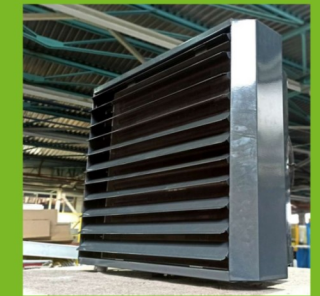

We innovate in ventilation solutions that are energy efficient, easy to install, reliable, and durable to ensure air quality in all the indoor spaces that we inhabit and pass through.

AIR HEATING

CCK TM has an extensive range of air curtains, and heating units, that promise the most efficient indoor and outdoor air separation.

AIR DISTRIBUTION PRODUCTS

We produce air distribution products such as external and internal grilles, air volume control, louvers, diffusers, and dampers.

CONTROL PANEL SYSTEMS

CCK TM has a wide range of control options to complement our product ranges.

Our extensive selection allows you to tailor the performance according to your preference from thermostats to intelligent control systems.

PROJECTS

SIGNATURE, KYIV

TORYAN TOWER, KYIV

AMBASADORI GORDEZI, GEORGIA

MARRIOTT, BATUMI

PROJECTS

AIRPORT BORYSPOL, KYIV

MANHATTAN, KYIV

LINDEN, KYIV

M2, TBILISI

OCEAN PLAZA, KYIV

In production, we use components from the world's leading manufacturers:

- Motors and frequency converters – ABB, Siemens, WEG
- Damper Actuators – Belimo, Siemens
- Rotary Heat exchangers – Klingenburg
- Controllers – Carel, Danfoss
- Impellers – Ziehl-Abegg, EBM-Papst

PARTNERS

”

CCK TM uses top-quality components from world-class brands.

DELIVERY

We recognize each project is unique, and your delivery requirements may vary. That's why we offer customized delivery solutions tailored to your specific needs.

Whether you require expedited delivery, specialized handling, or on-site installation support, we will accommodate your requests and ensure a seamless delivery process.
